

## ***Internet-based fleet management reporting system***

Unifleet is both an efficient fleet asset management system as well as an excellent maintenance system, accessible securely anywhere there is broadband Internet access.

Fleet managers can capture detailed data about fleet operations, including costs such as fuel, repairs and maintenance. Unifleet translates it efficiently into meaningful reports, at the lowest possible cost, to help them reduce fleet costs and achieve more efficient fleet management.

## ***Efficient management and lower costs***

**Your financial system**

**Financial and planning information about your assets**

**Your fuel delivery system**

**Utilisation, Fuelcard and depot bowser data**

**Your workshop and external dealer systems**

**Internal workshop AND external dealer maintenance data**

**Automated transfer from your existing system into Unifleet OR enter data into Unifleet online**

**Enter data into Unifleet online**

# **unifleet**

## **Internet-based reporting system**

<b>Asset reports</b>	<b>Maintenance reports</b>
<ul style="list-style-type: none"> <li>- Plant List</li> <li>- Renewals</li> <li>- Utilisation</li> <li>- Plant Details</li> <li>- Fuel Tax Credits</li> <li>- Leased Vehicles</li> <li>- Associated Items</li> </ul>	<ul style="list-style-type: none"> <li>- Fuel Consumption</li> <li>- Expenses &amp; Recoveries</li> <li>- Ten Year Replacement Program</li> <li>- Replacement Budget (Approved)</li> <li>- Replacement Budget (Unapproved)</li> </ul>
	<ul style="list-style-type: none"> <li>- Services Due</li> <li>- Maintenance Status</li> <li>- Maintenance Failure</li> <li>- Downtime Summary</li> <li>- Maintenance History</li> <li>- Mechanic Timesheets</li> <li>- Maintenance Summary</li> </ul>

- Greater efficiency**
- Lower costs**
- Better compliance**
